COUNCIL DISCUSS GAS PROSPECTS AT MEETING

Coleman town council met last week when it was decided to hold a meeting with the representatives of East Coleman in the Improvement District No. 10.

Purpose of the meeting will be to discuss the possibility of providing gas service for the residents of this area as Coleman will be installing their own gas system to service Coleman proper. The council and Citizens' Committee of the Improvement District will also discuss the matter of pooling their recreational grants with the idea of instituting some recreational facility that will be of benefit to both areas.

It has been previously suggested that a swimming pool be considered, but the cost was high, and the possibility of financing such a scheme will be discussed.

Council announced that debentures in the amounts of \$100, \$500 and \$1,000 units were still available at a rate of interest of 6 per cent.

It was announced that so far some \$35,000 has been sold, and some \$75,000 to \$80,000 worth are still available. The town is raising approximately \$233,000 to instal a natural gas utility which is to be owned and operated by the town of Coleman.

Correspondence was received by council, advising that the passenger dayliner service through the Pass would soon be taken off. The council decided to add the name of the town to the list of towns and other parties that are objecting to the CPR removing this service.

Coleman Pensioners Attend Waterton Rally

A busload of some 35 persons from Coleman and Hillcrest Pensioners and Senior Citizens Association attended the annual rally held in Waterton Lakes on Wednesday afternoon. The approximate 150 persons attending included members from Taber, Fort Macleod, Pincher Creek, Lethbridge, Coleman and Hillcrest.

The afternoon entertainment included bingo games and other competitions and a program of entertainment in which Mrs. J. Rushton and April Ingram of Coleman sang several solos. Mr. Bullock a representative of Edmonton also gave a talk on Civil Defence. Following the festivities a mass picnic was enjoyed when all attending opened up the picnic baskets each family had brought for the enjoyable affair.

It was announced that the Annual Convention for South Alberta branches of the National Pensioners and Senior Citizens Association will be held in Coleman on August 8th. Meeting will be held in the Union Hall commencing at 9:00 a.m. and speakers from Edmonton and other points will be present. Coleman group will be hosts at the banqueting.

Local Fisherman Catches 15 Pounder

"Scotty" Fleming hooked onto and landed a 15-pound Dolly Varden on Monday afternoon.

The big fish weighed in at exactly 15 pounds and measured 35 inches in length and 20 inches in girth. It took the experienced fisherman 45 minutes to subdue the fighting trout.

The fish was caught by Scotty in the Flathead River about eight miles below the townsite 15 miles south of Corbin or 45 miles south west of Coleman. The big trout was lured by a new type hook called a "Sneak" which is a spinner type hook with a white, gold and silvery body.

According to Scotty the hook is one of the best he has used in his many years fishing as he claims the fish "just can't resist it".

He then caught a big trout he had been trying for. Scotty was using a nine-pound test line.

On July 1st Scotty caught a 7-pounder in the same place and on that day missed another big one.

Seven years ago he caught an 18-pounder in the same place.

Sportsmen by the score are visiting the Crows Nest Pass each weekend to try to catch on one of the big ones that have been coming out of the streams and ponds in the near vicinity of the Pass.

During the past two months, beautiful rainbow ranging from 5 to 10 pounds have been caught in the district and fishermen are reporting excellent catches of trout and grayling in the streams which are now good for fly fishing.

No Ships For Coal Orders

The Vicary Creek Mine of Coleman Collieries Limited ceased operations last week and in an interview with Colin Blanchflower, General Superintendent for the coal company, the Journal learned that the stoppage of work is presently due to lack of ships at the West Coast for the exporting of the Coking coal to the Japanese steel companies. Meanwhile the Coal Company are doing extensive studies in hydraulic mining.

**Labor Picture
Is Good**

F. J. Lote, manager of Blairmore offices of the National Employment Service, reports this week that the labor and industrial situation in the Crows Nest Pass from Fernie east to Pincher Creek, is bright.

In 1961, due to the construction of 36-inch gas trunk line through

the district some 435 new jobs were created which petered out as the work completed at the end of the year.

As of June, 1962, the local office has placed in employment more than they did as of June, 1961, which indicates that 435 jobs were found in addition to regular demand.

This would represent a growth in the labor markets. Expansion in every municipality is noted as new

schools, utilities, sidewalks, road construction is absorbing many men.

A major item to account for this is the steady expansion of the lumbering industry in the Pass.

Mr. Lote states that the future looks bright for the two coal mines in the Pass, as these mines have had little lost time due to a lack of ships at ports on the west coast. In the construction industry new schools are projected and one is presently under construction and new service stations are being completed and in the municipalities in the Pass housing projects are underway and are providing some work. Retail business is also reported to be good and compares favorably with the same period in 1961.

Unemployment Insurance claims are lower than they have been for some years in comparison to other local office areas of the prairie region, and according to Mr. Lote we are experiencing better progress than any other local office area.

It is expected that labor demand will remain steady this fall. Some labor will be required in all municipalities which are installing the natural gas systems and this will also help the retail plumbing and heating establishments.

There is sufficient local labor available but it is reported there is a shortage of skilled tradesmen such as carpenters, bricklayers, etc.

In every municipality and improvement district there seems to be a fever of sprucing up and cleaning up of streets and business establishments which in turn creates a general opinion and feeling of progress and prosperity.

Keep in a rut too long and you'll dig your own grave.

IN ORDER TO PUBLISH reports of meetings of various organizations, it would help if a press correspondent was appointed by each one to send in the news. It is impossible for a reporter to attend all the meetings, therefore co-operation would be appreciated, and at the same time publicity would be assured for the meetings.

**Lethbridge Exhibition
and Rodeo on
July 25 to 28**

It will cost fair-goers only \$1.00 this year to see all the attractions and performances at Southern Alberta's summer-time show window of exhibits and all-star rodeo.

In other years the Lethbridge and District Exhibition and Rodeo had a gate entry fee and extra charges for the special attractions. This year, July 25 to 28 event will see all the gates opened for adults for \$1.00.

The four-day Southern Alberta event opens in Lethbridge Wednesday, July 25 at 10 a.m. with a mammoth parade that will start in North Lethbridge and wind its way down through the main business section of town down Lethbridge.

Someone who attends the fair this year will be \$5,000 richer. That's the price tag on a bar of gold that will be given away to a lucky ticket holder.

Other highlights of the big attractions will be Mighty Thompson shows which will bring with it on its first Southern Alberta circuit the biggest Kiddieland ever seen in the south. In addition it will have 100 concessions, rides, games, side shows and other attractions in the midway.

Featured on the exhibit program will be the Alberta Aberdeen Angus Show and the 6th International Appaloosa Show, both of which already have the biggest list of entries ever.

Dairy cattle, Hereford, Shorthorn, swine, sheep and light horse class-

es will fill out the other events on the program of agricultural events.

Another first this year will be night rodeo. This event will see top cowboys from across North America and special rodeo clowns act will be in for two hours of entertainment.

Outsiders attending the fair are reminded that the camp grounds for tents and trailers are located within the fairgrounds, where cooking and picnicking facilities are available. Adjacent to the fairgrounds is beautiful Henderson Lake where additional picnic facilities are available.

A must this year for all fairgoers will be the new Exhibition Pavilion, referred to by many as the Stockade. This \$600,000 structure was completed during the past year and this year will house a full complement of exhibits, including the livestock exhibits.

**Tail-gating Major
Highway Menace**

Tail-gating — driving too close to the vehicle ahead — gains nothing for a motorist, but can take away his liberty or his life.

"Leave some 'living' room between cars in traffic," the Canadian Highway Safety Council urges, recommending at least one car length for each 10 miles an hour." This will allow time to stop if the driver ahead suddenly decides to stop, turn, change lanes or make some other unexpected movement." No brakes are good enough and no driver is smart enough to stop shorter than that."

The Council adds that tail-gating is a definite sign of an immature driver, a show-off who believes he is being admired but is actually being ridiculed.

**196 Graduate in
Certificate Courses**

The Public Administration Division of the Department of Extension, University of Alberta, reports that its Local Government Administration program has now produced 196 graduates in its certificate courses.

In two three-year in-service training courses, there are now a total of 105 graduates of the Assessment course and 91 graduates of the Administration course. Enrolments in these courses continue to bring new local government personnel into the training program and total enrolment seems to be settling at about 200 students in each term after four years of operation. A new class is to be enrolled again in October, 1962.

The University of Alberta's Department of Extension announces the appointment of Mr. Joseph E. Mulley to its Public Administration Division, to prepare course material in local government accounting.

Mr. Mulley comes to this assignment with a Bachelor of Arts degree in Economics and a Bachelor of Commerce degree, and he is a Chartered Accountant.

He brings with him a practical understanding of accounting matters acquired through many years of working in public accounting, having been associated with the firms of Price Waterhouse Co. and Touche, Ross, Bailey and Smart.

The new program in Local Government Accounting will be offered for a first time in Alberta in

October, 1962. Municipal and school board secretary-treasurers and accountants will be provided with a comprehensive course — designed specifically for their needs and based on standard accounting principles. This program has been an objective of the Secretary-Treasurers and the Alberta Chapter of the Municipal Finance Officers' Association for several years.
